- Vitamin D3 IP (Cholecalciferol) ... 600 IU

Excipients: q.s.

DESCRIPTION

This combination of antioxidants and vitamins supports nerve health, energy metabolism, and immune function.

- Alpha Lipoic Acid: A potent antioxidant that helps protect nerves and cells from oxidative stress
 - Pyridoxine (B6), Cyanocobalamin (B12), and Folic Acid: Essential for nerve function, red blood cell production, and prevention of neuropathies
 - Vitamin D3: Supports bone health, immune system function, and calcium absorption
-

INDICATIONS

Recommended for the treatment and prevention of:

- Diabetic neuropathy and peripheral neuropathies
 - Nutritional deficiencies
 - Chronic fatigue and weakness
 - General immunity and wellness
 - Supportive therapy in neurodegenerative conditions
 - Cardiovascular and metabolic health support
-

DOSAGE AND ADMINISTRATION

Adults: One tablet daily or as directed by the physician

Take after meals with a glass of water

Do not exceed the recommended dose unless advised

CONTRAINDICATIONS

- Known hypersensitivity to any of the ingredients
 - Hypervitaminosis D or hypercalcemia
 - Not recommended in patients with severe renal impairment without medical advice
-

PRECAUTIONS

- Use under medical supervision in pregnancy or lactation
 - Monitor vitamin B12 levels in long-term therapy
 - Patients on anticoagulants should consult a doctor before use
 - May interact with anti-epileptic, antidiabetic, and chemotherapy drugs
-

SIDE EFFECTS

Common:

- Nausea
- Headache
- Mild gastrointestinal discomfort

Rare:

- Allergic skin reactions
- Fatigue or dizziness (due to individual vitamin sensitivity)

STORAGE INSTRUCTIONS

Store in a cool, dry place below 25°C
Protect from moisture and direct sunlight
Keep out of reach of children

PRESENTATION

Box of 10 tablets in Alu-Alu packs

SCHEDULE

Nutraceutical – To be used under medical supervision, especially in chronic conditions
